

ACC Landscape Services was divested as a division of American Civil Constructors in mid May of 2009. We have been operating as our own independent company since that time. A part of this agreement was that ACC Landscape Services change its name and logo and cease using the trademark of “ACC Landscape” at the end of 2009.

We are pleased to announce the roll out our new name on January 18, 2010. Our new name is Terracare Associates.

Our new name was chosen to reflect our core services; taking care of the earth and the physical surfaces we use and enjoy on a daily basis. We are service contractors who care for many of the things we sometimes take for granted including roadways, landscapes, lakes, sportsfields, parking lots and many others. We take pride in our technical competence and our ability to deliver services in a timely, cost effective and professional manner.

You will see our new logo on our vehicles, signs, uniforms and letterhead beginning January 18. There is no change in company ownership or personnel. It is simply a change in our identity that better reflects our mission and purpose as a company. Any new or future contracts or correspondence will be in the name of Terracare Associates.

We are truly excited about what's ahead for us and our goal is to provide you even higher customer satisfaction in the future. We appreciate your patience and understanding as we implement this change. If there are any questions or concerns regarding the change, please feel free to give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Williams", with a long horizontal flourish extending to the right.

Todd Williams
President
